Bias Collection Launch www.purcelliving.com

The Bias Collection, is a distinctive new range of sofa, lounge chair, ottomans, side tables, hooded and high-back chairs from award winning designer Alexander Purcell Rodrigues

Inspired by crystalline structures with bias cut hand paneled upholstery and attractive exposed wooden frames, this collection is visually dynamic from any viewpoint and brings elegance grace to your daily living.

The Bias sofa and lounge chair have unusual lines, which make them striking pieces in their own right or the perfect complement to one another as a featured pair bringing dynamism to any room.

The Bias sofa and lounge chair have solid wood side tables, using the same form language, which nest into the armrests and both pieces are accentuated by their corresponding ottomans.

The Bias hooded chair, distinguished by its unmistakable faceted upholstery, makes the perfect stylish accent piece to any room and can be used alongside the Bias high back chair as an elegant dining setting.

The Bias Collection is available in a wide range of fabrics and leathers or COM/COL and is designed for discerning customers demanding high standards of comfort allied to clean lines and the simplicity of uncluttered, exquisite design.

XXXX

Full collection includes: sofa and ottoman, lounge chair and ottoman, hooded chair, high-back chair, sled chair and side table.
