### **Cuscino Easy Lounge Launch** [www.purcelliving.com](http://www.purcelliving.com)

The Cuscino easy chair and B.O.P (Bench, Ottoman, Pouf) is inspired by vintage luggage trunks, they are the perfect marriage of tradition and modernity. These pillow-like bolsters are bound together with natural leather straps. The generous proportions and multifunctionality of the Cuscino family make each piece unique for its appearance and utility. An outdoor version is available taking on a nautical twist, exchanging the leather straps for weatherproof nylon ropes.

Available in a variety of sizes in COM/COL with natural or custom eco stained leather straps, outdoor version with Sunbrella fabric and nylon rope. The internal padding is comprised of a sandwich of foam densities to give both comfort and support.
